

Announcement

RPM enters into advisory services agreement with Barapakuria Coal Mining Company Limited

31 May 2017

RPMGlobal Holdings Limited (ASX: RUL) [RPM] has overnight entered into an advisory services contract with Barapakuria Coal Mining Company Limited (**BCMCL**) as a member of a three team consortium with Fugro Consult GmbH and Mibrag Consulting International GmbH to deliver a Feasibility Study for Development of the "Dighipara Coal Field" located at Dighipara, Dinajpur, Bangladesh.

The BCMCL project is expected to have a 27 month duration with the objective being to develop and carry out a complete exploration, geological, hydrological, geotechnical, economics and environmental study resulting in a complete feasibility study to determine the technical and economic feasibility of the Dighipara Coal Field in Bangladesh. As Bangladesh passes peak gas supply and with the clear intention to continue to accelerate economic growth in the north western region of Bangladesh, the Bangladesh government has engaged the consortium to complete the study to support the growing demand for energy in Bangladesh.

RPM's USD\$2.5 million share of the total USD\$18.5 million project involves the delivery of a range of advisory services including exploration advisory services, conceptual, pre-feasibility and feasibility studies, overall project economic modelling, JORC resource and reserve statements, gas testing as well as acting in the role of technical team lead supporting the overall project.

Commenting on the contract, RPM's Executive General Manager of Advisory Services Philippe Baudry said "RPM is pleased to have been awarded this important work for the BCMCL project. This engagement over 27 months will involve a number of RPM's key advisory personnel across the key disciplines and builds on RPMs ability to collaborate and deliver RPM's capabilities into large scale advisory projects of this nature."
